

## Intern Evaluation

June - June was a wonderful intern! I loved working with her! She is so sweet and kind! She is also very passionate about basic needs and always finishes her work on time! She comes up with innovative ideas and is very collaborative! I think the only thing she could have done a little better is to communicate with me during the week with her questions instead of asking them during our Friday meeting. This way some of the tasks that were assigned that week would be done before Friday, rather than being postponed to be done during our meeting or after our meeting. One more thing is I wish that she would speak up a little more in meetings! Her ideas are really good, so I would like to hear them more! (This is just me being picky. These aren't really isn't a huge weakness). Overall I loved working with June! It was nice to get to know her and watch her grow this semester!

Josie - Josie was an amazing intern! I truly enjoyed working with her! She is so sweet, genuine, and confident! She is super organized and gets her work done on time! She is always so proactive with her tasks and is very communicative over the week. She comes to me with any questions that she has over the week. I love her passion for basic needs and how she uses that passion to come up with creative ideas in our meetings. I think the only thing she could have done a little better is to communicate a bit more during the meeting. Sometimes our meetings are a lot of me just talking, I would appreciate her input sometimes. Her ideas are really good, so I would like to hear them more! (This is just me being picky. It really isn't a huge weakness). Overall Josie was so fun to work with this semester and I am glad she was my intern. I love watching her grow as a person this semester.
